

ET4 High Efficiency Nozzle 20°

8 x 20° rear jets have a great **thrusting capacity to wash out** sediments inside sewers
Thanks to its shape, weight and 20°calibrated orifices, **ET4** is considered as a very **popular,efficient** and **performing**
Heavy nozzle with extended life time.

Available with S/Steel or Ceramic Inserts.

Ceramic inserts are recommended using dirty or recycled water.

Applications:

Removing and expulsion of strong blockages inside big pipes

Flushing out calcareous deposits, sand, sludge, gravel, mud, long runs jobs

Part N.	Material	Inlet	Inserts	Rear Jets	Front Jet	ØxL mm	Kg	Ø Pipe	Max Bar
15140.03A	ET4 Steel	3/4"F	SS inserts	8 - M10x12	1 - Tbei M10	70x98	1,60	80 - 300	300
